Dear Rod:

On March 29, 2002 we received the enclosed filing receipt from the Patent Office, confirming the filing of your patent application and assigning a serial number. Each patent application is assigned a unique serial number that can be used to track the status of the application. Because your competitors may also be able to gain access to your confidential patent application by discovering the serial number, you should store the filing receipt in a safe location and avoid giving the serial number to anyone who should not have access to your patent files.

Also enclosed is a Notice to File Missing Parts and a Combined Declaration and Power of Attorney. **Please sign this declaration and return it to our office.** Upon receipt, we will file this with the US Patent Office along with the fees as indicated.

We are pleased to assist you in securing patents for your inventions, and will keep you posted as this matter progresses.

Very truly yours,

BLACK LOWE & GRAHAM<sup>PLLC</sup>
